

X-keys XK-12 Jog & Shuttle

The XK-12 Jog & Shuttle offers twelve user definable keys with an integrated jog and shuttle ring fit in a small footprint equally suitable for desktop or hand-held operation. The design of the XK-12 Jog & Shuttle allows for both portrait and landscape orientation to fit your requirements. The full travel keys have the same feel as a standard keyboard and angled feet give the unit a slight tilt for better viewing of the key legends. Blue and red addressable backlighting enhances key identification in low light environments.

- A versatile control solution for any computer application
- User definable controls to scrub timelines or jog frame by frame
- Great for handheld, desktop, or mounted use
- Includes software for Windows and OS X
- Free software development kits and code samples
- Emulates Keyboard, Mouse, Game Controller, and Media commands
- Wired USB connection

MSRP: \$199.95
