

Y-mouse Dual PS/2 Mouse Adapter (WHYM-0002)

- Accommodates right and left-handed users by placing mice on both sides of a computer
- Switching between devices helps avoid repetitive motion problems
- Daisy chain to attach even more pointing devices at a time

Use 2 pointing devices from one port! Simultaneously connect two compatible pointing devices such as standard mice and trackballs. The PS/2 *Y-mouse* also supports most scrolling mice.

The *Y-mouse* Dual PS/2 Mouse Adapter Port works with all systems that support a PS/2 mouse. Both devices need to use similar mouse protocol. Trackballs, Touchpads and Mice are all relative coordinate devices that use similar mouse protocol.

Specifications

Operating System	All systems compatible with PS/2 mice
Connectors	Two 6 pin PS/2 sockets, one 6 pin PS/2 plug (mini DIN 6)
Dimensions	4" x 2.5" x .75", 100 mm x 63 mm x 20 mm without cord
Weight	2 oz., 60 grams
Power Consumption	Less than 15 ma @ 5 vdc with 2 mice
Power Source	Directly from PS/2 mouse port
Nominal Voltage	5 vdc
Software	Special software is not required
Drivers	Uses default mouse driver
Certification	FCC class B, CE
